## Felted soap

- : Felted soap lasts longer, does not slip out of your hand and provides a natural, soft exfoliator.
- : Even better, the felted alpaca cover is naturally antibacterial, odour resistant and breathable.
- : We use 100% Suffolk alpaca fibre from our own herd of boys. The soaps are made at the
- : Natural Soap Company in Norfolk using palm oil from sustainable, fair trade sources.
- : How to use:
- : Felted soaps are a scrub and soap all in one. Run under water and rub to create lather.
- : Wash hands, face and body as normal. When finished squeeze and dry, do not leave in water.
